PROFESSIONAL SUMMARY

UX/UI Designer who blend creativity with usability to craft digital products that are both beautiful and functional. I've designed complete user journeys, built wireframes, and created high-fidelity prototypes, with hands-on experience designing end-to-end products like a hydration app, travel app and a Nike website redesign. I'm eager to collaborate, iterate, and transform ideas into thoughtful, impactful designs.

SKILLS

- UX: User Research, Personas, User Flows, Journey Mapping, Information Architecture, Usability Testing, Interaction Design
- UI: Wireframing, Prototyping, Visual Design, Responsive Design, Design Systems
- Tools: Figma, FigJam, After Effects, Blender, Photoshop

PROJECT EXPERIENCE

HydroTrack – Health & Wellness

UX/UI Designer | End-to-End Product Design

Designed a hydration companion app helping busy professionals build consistent water-drinking habits with minimal effort.

- Led end-to-end UX: user interviews, empathy mapping, affinity mapping, and user journey maps to validate the core problem space.
- Designed HydroCalc — a personalized intake calculator using gender, age, weight, height, and activity level to set smart daily goals.
- Built a one-tap tracker with visual progress ring, smart reminders, and a positive weekly insights screen to reduce habit friction.
- Delivered lo-fi wireframes, hi-fi Figma screens
- Developed interactive prototypes for usability testing

Key Focus: Make hydration effortless by personalizing goals and reducing daily habit friction to a single tap.

GoRound – Travel Discovery & Booking App

UX/UI Designer | End-to-End Product Design

Designed a complete travel planning and booking experience enabling users to discover destinations, book stays, and reserve transport in a single flow.

- Conducted user research with target travelers to identify booking friction points
- Created personas and journey maps to define user motivations and pain areas
- Designed streamlined user flows reducing booking complexity
- Built low-fidelity wireframes and high-fidelity UI screens in Figma
- Developed interactive prototypes for usability testing

Key Focus: Reducing booking friction and improving multi-step flow clarity.

PROFESSIONAL EXPERIENCE

Client Associate & Revenue Cycle Management (RCM)

US-Based Healthcare Startup | April 2021 - Present

- Improved client workflow clarity by optimizing documentation, communication systems, and revenue operations in a fast-paced startup environment
- Analyzed workflows to identify inefficiencies and designed flows to improve process accuracy
- Collaborated with cross-functional teams to resolve operational challenges
- Developed strong problem-solving, communication, and analytical thinking skills
